

Project Design Phase-I Solution Architecture

Date	19 September 2022
Team ID	PNT2022TMID36322
Project Name	Personal Assistance for Seniors Who are Self Reliant
Maximum Marks	4 marks

Solution Architecture:-

- 1) An app is built for the user (caretaker) which enables him to set the desired time and medicine. These details will be stored in the IBM Cloudant DB.
- 2) If the medicine time arrives the web application will send the medicine name to the IoT Device through the IBM IoT platform.
- 3) The device will receive the medicine name and notify the user with voice commands.
